

How Cold Was It??

Frank Moll, Tail Gunner on 42-30336, *Miss Nonalee II*, called Mission 18 "the September 15 raid to FLAK city -- Paris." Frank's narrative continued, "I believe we flew our highest altitude mission that day and I never forgot how cold it was, 56 below zero F. Practically everyone's guns froze up. I took my gun apart and freed the firing pin. I think my firing at enemy planes had a great deal to do with the 385th's success that day."
